Global Leader Program(G.L.P)

Golden Hills School Division & Schools

1) Introduction of Strathmore

Strathmore, Alberta is located 40 minutes away from east of Calgary. It's population is about 17,000 and located near Rocky Mountains. Town of Strathmore is very environmental friendly and a typical Canadian town.

The recently developed pleasant new residential area has been well developed as a place where you can enjoy the intimacy of small towns and the convenience of large cities at the same time.

Since more than 95 percent of the population uses English as their first language, it is a perfect environment for immersion in English, and it is a safe city for international students to live in because it has no harmful environment compared to big cities.

Fully Managed Dormitory

This program is a fully managed dormitory program for students of Golden Hills.. This Global Leader Program is differentiated curriculum that aims to improve school life and improve the quality of the students by improving the quality of English and living in the dormitory.

This is a managed program that is run directly by the public education office.

English Immersion Environment

Canada's public schools obtains world's highest public education system.

Students will take regular classes just like Canadian students. Creates perfect English immersion environment as school curriculum programs are conducted in small schools. Each school offers ESL classes for new students, and depending on students English levels, they will be joining in regular classes.

Canadian Buddy (elementary and Junior High students) will be assigned to fit into the Canadian School and friendships.

Self Directed Learning

Korean and Canadian supervisors manage students' after-school education and daily life education to improve socializing skills .

Through meetings with individual students on academic and daily life, we set goals for learning, improve student's lifestyle, and encourage students to read books, study english and math skills, . These are very helpful in solving problems on their own, and they are a natural ingredient in the global era of globalization.
